Our SMS solutions

Are you seeking an effective way to boost your business, get in touch with customers, or send immediate notifications?

We offer an exclusive text messaging service that's perfect for you.

Financial institutions

Reaching out to customers with offers of financial assistance via text message can be a great way to increase loyalty and generate more income.

Clubs or Shops

Send out text messages automatically to inform customers about current deals and happenings.

restaurants and cafes

Utilizing cost-efficient text messaging tools for optimal restaurant staff and brand oversight.

Contact information

Text messaging two-ways provides a more effective and prompt way to get in contact with call centers.

Dealerships for cars

Draw in more buyers and bring in new patrons by sending out texts, discounts, and notifications about appointments.

Non-profits or charities

Utilize SMS campaigns & automated text messaging solutions to stimulate contributions and support fund-raising efforts.

Non-profits or charities

Churches can use SMS solutions to strengthen relations with their congregation.

Theaters

Grow your business and draw in more clients with mobile ticket promotions, bargains, or automated SMS customer service.

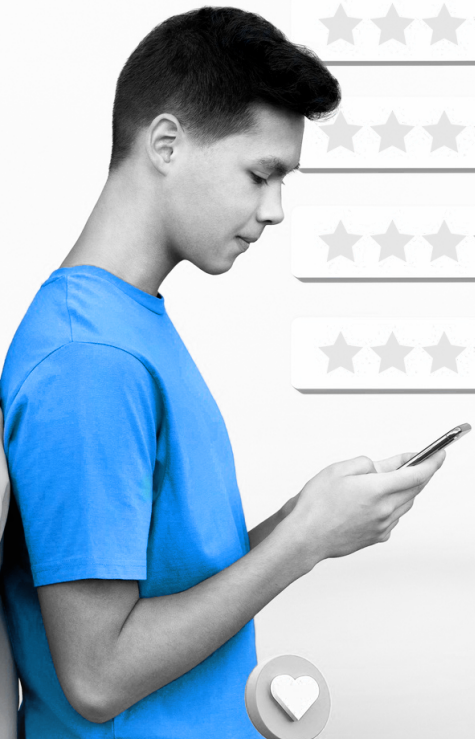

Online stores

Websites that engage in ecommerce can utilize SMS to communicate delivery confirmations, keep consumers apprised of the status of their order, and promote hot deals.

Services for emergencies

In the midst of a disaster, utilizing a text messaging system can be used to deliver urgent alerts.

Our VOICE Solutions

Simplify the order verification process for your WooCommerce and Shopify stores using our IVR Robo Call plugin. Custom Voice Over voice, keep track of call logs, manually contact customers, and ensure smooth and accurate order processing.

Custom Voice Over

Personalize automated order verification with custom voice over in both English and Urdu.

Call logs

Keep track of important information such as call duration, call status and caller ID.

Automated Calls

Call customers automatically with our IVR Robo Call.

Follow-up Call

Set 3 additional call attempts at different times if the customer doesn't answer.

API Integration

Integrate Robo Call with your WordPress, Shopify and custom eCommerce stores.

Custom Voice Over on Incoming Call

Redirect missed calls back to verification process, avoiding any hang-up calls.

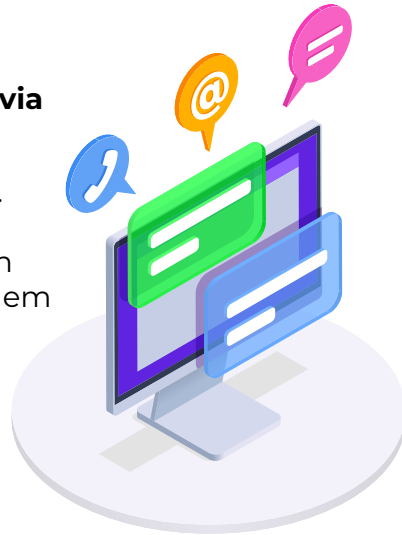

User Cases

Proven texting strategies for **your business**
